Re: Big Rivers Electric Corporation
Petition for Confidential Protection received 7/6/11
PSC Reference #: 2011-00036

Dear Mr. Miller:

The Public Service Commission has received the Petition for Confidential Protection you filed on July 6, 2011 on behalf of Big Rivers Electric Corporation ("Big Rivers") to protect certain information filed with the Commission as confidential pursuant to Section 7 of 807 KAR 5:001 and KRS 61.878. The information you seek to have treated as confidential is identified as being contained in portions of Exhibit attached to Rebuttal Testimony of Robert Berry. The information is more particularly described as redacted information contained in Exhibit containing a list of next scheduled outage of generating unit, the duration of the outages, and other numbers used to calculate next scheduled outages.

Your justification for having the Commission handle this material as confidential is that the public disclosure of the information would compromise Big Rivers' competitive position in the industry, which would result in an unfair commercial advantage to its competitors.

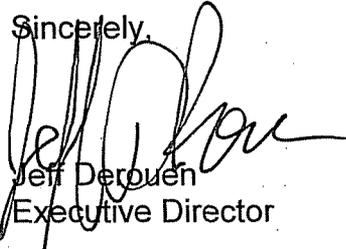

Based on a review of the information and pursuant to KRS 61.878 and 807 KAR 5:001, Section 7, the Commission has determined that the information requested to be held confidential is of a proprietary nature, which if publicly disclosed would permit an unfair commercial advantage to Big Rivers' competitors. Therefore, the information requested to be treated as confidential **meets the criteria for confidential protection** and will be maintained as a nonpublic part of the Commission's file in this case. The procedure for

usage of confidential materials during formal proceedings may be found at Section 7(8) of 807 KAR 5:001.

If the information becomes publicly available or no longer warrants confidential treatment, Big Rivers Electric Corporation is required by Section 8(9)(a) of 807 KAR 5:001 to inform the Commission so that the information may be placed in the public record.

Sincerely,

Jeff Derouen
Executive Director
